# LuckyPop

## Spin. Win. Surprise!

LuckyPop is a capsule toy machine shaped like a giant gift box, designed to capture attention and curiosity. Each spin brings surprise and excitement as players never know which capsule will drop or what's inside. The built-in roulette adds extra thrill, offering chances to win one, two, or even three prizes per round.

The clear display window showcases the full selection of prizes hidden inside the capsules. It's specially designed for branded PVC figures featuring the most popular characters, offered in collectible series that encourage players to complete the full set.

### INSIDE THE MACHINE

LuckyPop focuses on branded collectible toys. We collaborate with official license holders of leading global franchises — including Sanrio, Disney, Super Mario, Sonic, and more — to ensure top-quality products.
All toys come in branded colorful capsules, available in sizes from 50 mm to 100 mm. The machine operates with one capsule size at a time, using an interchangeable tube system for easy adjustment.

# RoboCollecto

## Fun Meets Function

RoboCollecto is the world's first machine to combine the reliability of automated vending with the excitement of a claw game. Customers can either play for a prize or purchase it directly, creating a new kind of retail-entertainment experience that's both fun and efficient.

With its clear display window and eye-catching design, RoboCollecto showcases a full range of toys and collectibles that instantly attract attention. The claw adds thrill and engagement, while the vending function ensures instant access, making it a perfect blend of fun and practicality.

### INSIDE THE MACHINE

RoboCollecto is built specifically for branded collectible figures. We work directly with license holders of the world's most popular brands — including Sanrio, Disney, Super Mario, Sonic, and many others — to bring the best products into each machine. All items are packaged in boxes designed to fit perfectly inside the unit, some in blind boxes, and offered in multiple sizes and price tiers.

# GrabLuck Claw Machine

GrabLuck Claw Machine brings a futuristic twist to the classic claw game. Its bold, eye-catching design stands out from any traditional model, featuring a transparent lower section where prizes drop, adding visual depth and excitement. The claw and joystick are redesigned with a unique modern look that enhances both style and play experience.

The machine includes an integrated AI-powered display that allows operators to photograph the toys inside, automatically generating promotional videos and images to showcase the products in an engaging way.

## INSIDE THE MACHINE

The GrabLuck Claw Machine is compatible with all types of toys and collectibles. The claw mechanism can be adjusted or replaced to fit different toy sizes, and the exterior graphics can be customized with brand themes or licensed character designs, making it ideal for any location or collaboration.

# Candy House

## Sweet Wins Await!

Candy House is a claw machine designed entirely around sweets and candy, shaped like a colorful candy house that no child can resist. Players use the claw to grab candy pieces, which are dropped onto a moving pusher platform. As the candy pile grows, the tension rises — and when it crosses the edge, the player wins a burst of treats.

This exciting mix of game and reward makes Candy House a proven crowd favorite. Its playful design, vibrant colors, and fast gameplay turn it into a high-traffic, high-profit attraction for any entertainment venue.

### INSIDE THE MACHINE

Candy House is suitable for all types of packaged candies, chocolates, and sweets that can be stored at room temperature. We supply mix candy packs specially mixed for the machine, featuring popular and trending brands that guarantee freshness, color, and appeal.

# Snacks Tornado

## Catch the Snack Storm!

Snacks Tornado is a storm of excitement for any location. The machine features seven claws working simultaneously to grab as many snacks as possible in a single play — turning every round into a high-energy experience. With its bold design, flashing lights, and shelves packed with popular treats, no kid can walk by without wanting to try.

Each section of the machine can be themed by region, adding a fun global twist. The default setup includes three rows of American snacks, two from Latin America, and two from Asia — because who wouldn't want to grab a snack from Japan? It's not just about how many snacks you catch, but which ones.

### INSIDE THE MACHINE

Designed primarily for packaged snacks, but easily adaptable for toys or collectibles. We offer ready-to-load snack kits featuring top-selling brands from the United States, China, Japan, Colombia, and Mexico — ensuring freshness, variety, and excitement in every play.

# Paw & Claw

## Cute Chaos Awaits!

Paw & Claw is the cutest machine in the GrabLuck lineup, themed around collectible pet characters. Players can collect full sets of puppies, kittens, piglets, and more — each designed to melt hearts and spark excitement. The dual-claw setup allows two players to compete at once, turning every game into a friendly race to complete the collection.

Its pet-house design and built-in screen display fun animations featuring the different animal characters, creating an experience that players can't resist coming back to.

### INSIDE THE MACHINE

Paw & Claw is designed for small pet-themed collectible toys. We offer four PVC figure sets, each containing nine characters, ready to load directly into the machine. It can also operate with any other small toy, and the exterior design can be customized to match any brand, character series, or general theme
